SUMMARY

Motivated Full Stack Developer with knowledge of Java, Spring Boot, Python, and web technologies. Quick learner with hands-on project experience and a passion for building scalable software solutions.

EDUCATION

Ponjesly College of Engineering

Nagercoil, Tamil Nadu, India

Bachelor of Technology (B.Tech) in Information Technology; CGPA: 8.26

2022 - 2026

SKILLS SUMMARY

- **Languages:** Java, Python, JavaScript
- **Web Technologies:** HTML, CSS, JSP, JDBC, Spring Boot, MySQL
- **Tools:** Visual Studio Code, NetBeans, IntelliJ IDEA
- **Soft Skills:** Communication Skills, Quick Learner, Team Collaboration, Adaptability

WORK EXPERIENCE

FULL-STACK JAVA INTERN | AGILE INFOTECH

July 2025

Worked on frontend design tasks using HTML, CSS, and JavaScript, contributing to functional and visually consistent web interfaces.

Learned responsive web design principles and gained hands-on understanding of end-to-end project development workflows.

PROJECTS

Face Recognition Based Attendance System

Built an automated attendance system using face detection and recognition to identify individuals and mark attendance in real time, reducing manual effort and proxy attendance.

Implemented face detection and recognition using Python and OpenCV, with attendance records stored and managed in a database for accurate tracking.

Restaurant Order Management System

Designed using JSP and JDBC to manage customer orders, menu items, and billing efficiently.

Implemented features for adding, updating, and tracking orders in real time, with a database-driven backend for accurate billing and menu management.

Public Toilet Maintenance

Designed a system to monitor the cleanliness and usage of public toilets, ensuring timely maintenance and better hygiene.

Tracked user entry and detected bad odor and cleaning status using sensors, sending automated alerts to authorities for cleaning or repairs.

CERTIFICATES

Robotic Process Automation (RPA) | UiPath Academy

November 2024

Gained hands-on experience in workflow automation and bot creation using UiPath.

Generative AI in Action | IBM SkillsBuild

August 2025

Learned Generative AI concepts and their applications in system automation.

Infosys Springboard Certification

Developed email writing skills, an agile mindset, and unit testing techniques for JavaScript applications.

ACHIEVEMENTS

Actively participated in college workshops and technical training sessions.

Participated in UST Global Hackathon 2025 as part of a team, contributing to idea development and prototype design.
